

How to desaturate a part of the image leaving other parts untouched

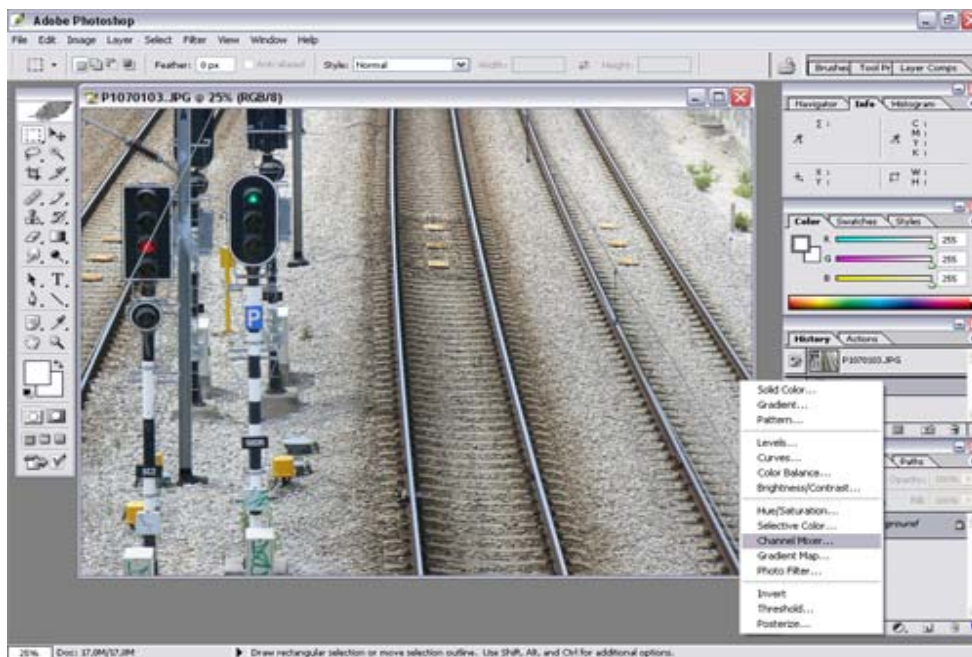

Step 1

Open the color photo in your Photoshop

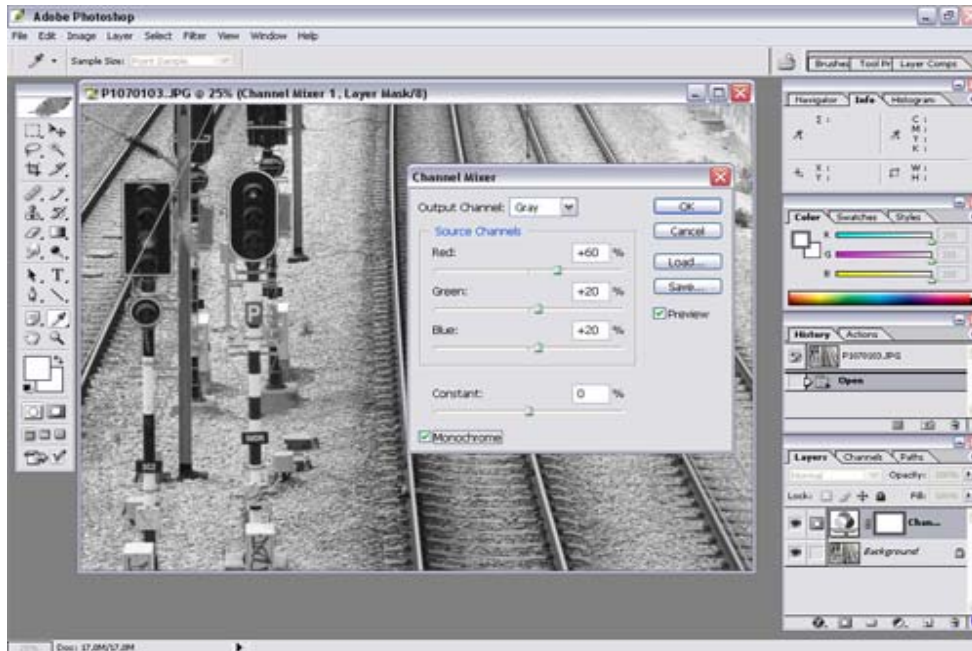

Step 2

Select Channel Mixer at Layer > New Adjustment Layer > Channel Mixer...

Step 3

Adjust Source Channels (Red plus Green plus Blue must be 100%) and Constant, select Monochrome and press OK

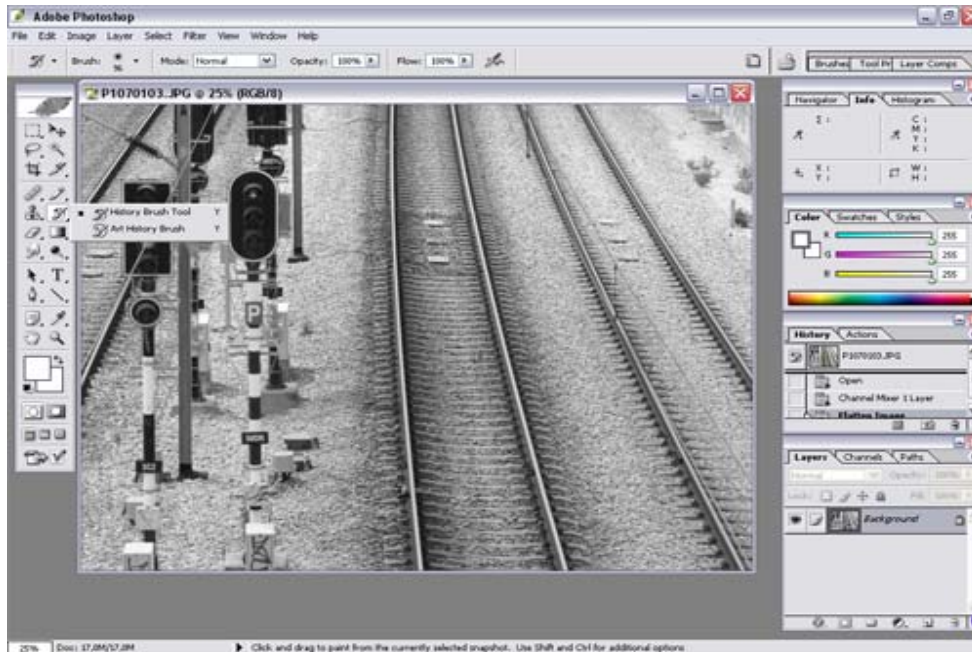

Step 4

Select Flatten Image at menu Layer

Step 5

Select History Brush Tool and sets the source for the history brush

Step 6

Press History Brush Tool at the traffic light
